Orders will be filled based upon:

- Vaccine shipments from BCCDC over a period of 3 to 4 weeks
- Historic dosage reporting
- Availability

Note: Depending on the local health unit's inventory, specific brands may not be available and an interchangeable product may be supplied.

Instructions for Community Vaccine Provider (CVP)

- Using this form, submit your order by fax to your community Health Unit.
- Please keep a copy for your records
- The CVP or designate is required to sign for receipt of the influenza vaccine upon pick-up at the Health Unit.
- The CVP will need to submit a new order for subsequent orders.

Instructions for the Health Unit Biological Product Monitor/Designate

To fill the CVP's complete/partial order:

- Record the number of doses in the "doses supplied" column
- Record the date the vaccine is packaged and available for pick-up in the date column
- Record the Panorama Requisition Number
- Contact CVP for pick-up
- The health unit staff is required to sign when order is picked up

Influenza vaccine accountability

- Publicly funded influenza vaccine must be accounted for. Vaccine utilization must be reported in order to ensure vaccine supply for the following year.
- Return expired/unused vaccine back to the local Health Unit when requested.
- The Publicly Funded Influenza Vaccine Tally form is available on the Northern Health website to assist with vaccine tracking.

Cold chain

Always maintain the cold chain (2° to 8°C) and contact the health unit immediately if you experience cold chain problems.

Age group	Vaccine ^A	Comments
6 to 23 months of age	<ul style="list-style-type: none"> • Flulaval® tetra • Fluzon® quadrivalent 	
2 to 17 years of age	<ul style="list-style-type: none"> • Flulaval® tetra • Flumist® quadrivalent • Fluzone® quadrivalent 	
18 to 64 years of age	<ul style="list-style-type: none"> • Flulaval® tetra • Fluzone® quadrivalent 	<ul style="list-style-type: none"> • Flumist® quadrivalent may be offered to those 18-59 years of age who have needle phobia and are unwilling to get another influenza vaccine, provided informed consent includes that QIIV provides better protection against influenza for this age group.
65 years of age and older residing in the community	Fluad®	<ul style="list-style-type: none"> • If Fluad® is unavailable, Flulaval® tetra or Fluzone® quadrivalent should be used.
65 years of age and older who are residents of long-term care, assisted living facilities and First Nations communities.	<ul style="list-style-type: none"> • Fluzone® high-dose Quadrivalent 	<ul style="list-style-type: none"> • If Fluzone® high-dose quadrivalent is unavailable, Fluad® should be used. • If neither of these products are available, another inactivated influenza vaccine may be used.
