

# Drug Advisory

## Issued for Prince George, BC

For Immediate Release: November 27, 2024

Northern Health has issued a Drug Advisory for **Prince George**. A pressed, white, 8mg tablet sold as Dilaudid/Dilly tested positive for fentanyl. The pill looks very similar to a prescription Dilaudid or Hydromorphone. Please take care.

Fake Dilly (pictured right) compared to prescription Dilaudid (left).

### For your safety:

- Get overdose prevention, recognition, and response training; carry naloxone.
- Try not to use alone. Make a plan and tell a trusted person who can call for help if needed.
- If you plan to use alone, use the Lifeguard or BeSafe app available free on the app store or on Toward the Heart website (<https://towardtheheart.com>) or call NORS (National Overdose Response Service) 1-888-688-NORS.
- Know your tolerance. If you are sick or had a time of abstinence or reduced use, use much less.
- When possible, avoid mixing drugs or mixing drugs with alcohol.
- Test a small amount first, start low and go slow.
- Use in an Overdose Prevention Site (OPS), see below for hours.
- Get your drugs checked at Two Doors Down, see below for hours.
- Take into account potential decreased tolerance and isolation due to cold weather.
- Call 911 or your local emergency number right away if someone overdoses.
